

CHALK STYLE PAINT

Chalk Style Paint is a casual, chalky, interior matte paint to be used when you want a textured finish. This new Chalk Style palette complements our existing Milk Paint line with soft muted colors inspired by relaxed Scandinavian hues, British tradition and American favorites. Chalk Style Paint and GF Milk Paints are compatible and intermixable; use mixed product immediately.

A GF topcoat is recommended for areas where higher durability is required.

Fast Drying • Water Cleanup • Low Odor • Spray or Brush
